BOOK SYNOPSIS

The Couples Psychotherapy Treatment Planner, 2e provides treatment planning guidelines and an array of pre-written treatment plan components for behavioral and psychological problems, including communication problems, blended-family problems, depression due to relationship problems, financial conflict, parenting conflicts, infidelity, sexual dysfunction, work/home role strain, and separation and divorce. Clinicians will find this up-to-date revision an invaluable resource. It features: Treatment plan components for 35 behaviorally based presenting problems including jealousy, midlife crisis, parenting conflicts, and sexual dysfunction. All chapters are updated to include the latest research and clinical developments and to indicate evidence-based treatment interventions throughout. Updated to include DSM-5 and ICD-10 diagnostic codes. Includes three new chapters: Internet Sexual Use; Retirement; Parenthood Strain. Two intimate partner violence chapters - one covering bidirectional intimate partner violence and one covering intimate terrorism. Over 1,000 prewritten treatment goals, objectives, and interventions -- plus space to record your own treatment plan options. A step-by-step guide to writing treatment plans that meet the requirements of most insurance companies and third-party payers.
