BOOK SYNOPSIS

Excerpt from Trailer Ahoy! The automobile trailer home has created the greatest sensation this country has seen in many a day. Within the past few years America has become not only trailer conscious, but trailer crazy. You see and hear about trailers everywhere in cartoons and comic strips, in the newspapers and magazines, on the radio, in the movies and as a topic of general conversation. Even the toy builders are turning out half a dozen types of trailer toys. The automobile industry developed quickly from an inventor's brain child into a national institution, but in comparison the trailer industry has grown with the speed of lightning. Good roads from Mexico to Canada and from the Atlantic to the Pacific have opened up a wonderland of adventure to the American motorist. And trailers are opening this wonderland wide to the tourist of limited means and to the traveller in any walk of life who insists upon certain comforts and conveniences en route.
